Career Experience

Vice President HSE - Occupational HSE Director

2018 – 2020

P&I Energy, Houston, TX, US

Performed services as health, safety, environmental and quality VP for start-up of new technology to find/tap oil reserves previously unable to harvest in drilling and fracking of West Texas Permian basin.

- Oversaw regulatory duties concerning ISO, OSHA, DOT, GLO, RRC, NRC, designed security SOP's, and led DISA and drug/alcohol enforcement programs.

Safety PIC at Refinery / Chemical Plant Docks, Maritime Hazardous Products Specialist

2013 – 2018

Merchant Mariner Hazardous Cargoes, Corpus Christi Industrial Harbor, Corpus Christi, TX, US

Served as safety person in charge (PIC) of dock and vessel cargo transfer operations, while adhering compliance of vessel and dock as per government agencies and company policy. Maintained safety, fire, and emergency equipment for vessel seaworthiness to make crew familiar with safety procedures and fire equipment. Organized all required safety inspections and drills as an H2S safety professional through identification of underlying causes and hazards.

- Oversaw & transferred "Immediately Dangerous to Life or Health (IDLH)" hazardous chemicals by following safe procedures.

...continued...

Director of Safety / Owner - Fisheries and Maritime Management

2004 – 2013

Shrimp.com, Houston, TX, US

Established short / long-range plans to drive company growth by managing all aspects of company operations along with provision of strategic leadership. Oversaw new channel development with responsibility of complete P&L to excel in achieving outstanding project results.

- Supervised plant HACCP compliance and employee safety operations by defining company vision, mission, objectives, strategies, and key initiatives to ensure success and seamless workflow to maximize profits & safety.

Marine Advisor / Manager | Spill Response Incident Commander | Refinery Safety / Logistics Manager 1993 – 2004

Kirby Inland Marine, Houston, TX, US

Supervised 176 vessels, 100's of employees and +3,000 tank barges with over 100 load/discharge destinations daily. Received customer orders and assigned in-house equipment and labor to ensure zero discrepancies. Prepared equipment, assigned vessels, and disseminated orders throughout all company departments. Vessel Safety trainer.

- Coordinated actions across US Coast Guard, vessel operations, barge maintenance and repair, transfer facilities, and associated shore-side support services. HSE Accident & Incident Commander from 1997-2004.

*Additional Experience as **Construction Safety and Inshore/Offshore Marine Environmental Manager** | Oil Drilling
